Education

LearningFuze Accelerated Web Development Program –2018

- Graduated from the Full Immersion Program while gaining over **800** hours of programming experience.
- Worked in numerous team environments to create applications with other developers.

University of California, Riverside

- Majored in Political Science

Projects

CODING COOPS   LIVE | GITHUB

- An application designed to be a help forum for developer community. Users can post questions regarding their code and other users will help solve any problems with the code.
- Build using **ReactJS**, **Bootstrap 4**, **NodeJS** and **MongoDB**.
- Worked primarily on the back-end of the application, while overseeing a team of 5 developers under me.
- Organized team meetings, oversaw and contributed to the UX/UI of website while keeping my team organized through the use of **Meistertask** and **Slack**.

STUDENT GRADE TABLE

- Solo project that was used to create and maintain a grade table for students.
- Used API calls to database to achieve full **CRUD** operations.
- Built using **Bootstrap 4**, **JavaScript**, **HTML5**, and **jQuery**.
- Users can add/edit students to the grade table with grades and classes.

CALCULATOR

- Application that functions as a working calculator that can process various outputs.
- Built using **JavaScript**, **HTML5**, and **jQuery**.

Experience

A1 SELF STORAGE (2017-2018)

- Utilized CRM system to maintain relationships with customers, help with sales, and sign lease agreements.
- Provided content to go in advertisements for the store website and in newspapers in surrounding area and for email send outs.

STRATEGIC MANAGEMENT GROUP (2014-2016)

- Sales role for Internet/phone Company, helped set businesses up with appropriate technology to accommodate their business needs.

NINE WEST (2013-2014)

- Customer service role where I handled stock/inventory and made the appropriate orders for new merchandise.
